

Introducing Bellaboo's *ALL YEAR LONG* Discovery Trips designed for Pre-K to 3rd grade

STEM at Play

A.B.C. About Building Character

This program is designed to help children learn important tools which will build their character. We will focus on teaching appropriate responses to bullying behavior. Children will begin to recognize they have a voice to protect themselves and others to stop bullying. Bellaboo's cares about our growing children, we want to encourage sharing and cooperative play. Following the golden rule- Treat others as you would like to be treated.

NCIS- Nursery Children Investigate and Solve

This interactive learning experience helps our pre-school and Kindergarten students practice their math skills by figuring out the missing link in patterns and sequences. Following one to two step directions, your children will explore and practice using their detective skills while they solve a Mother Goose Rhyme Crime. They will participate in reciting common nursery rhymes as they use teamwork to solve the problem.

Perfect for
Pre-K &
Kindergarten

Stuffee—

Children love Stuffee, our 8' cloth doll with soft removable internal organs. Through this educational field trip, your students will learn about the body systems. They will learn how nutrition, good personal hygiene, rest and exercise are essential to maintaining a healthy body. Our young visitors will participate in a science quiz game show about the body parts. They will explore and act like young doctors as they listen to Stuffee's heart. Your students will also create a body and use their knowledge to place the body organs where they belong. *Perfect trip for Multi-Age group.*
