

# Introducing Bellaboo's Summer Discovery Trip

designed for Pre-k to 3rd grade

## Explore the Possibilities

### DINO DIG

is open for the Summer!

### Unguided Exploration

For groups looking for an educational experience with less structure and lower cost, we offer Unguided Exploration. This experience is ideal for your group because it guarantees to give the children time in each of the play zones. This trip is a two hour experience which includes time in the water room, construction zone, train depot, face painting, pretend village, and soft play area which has a jungle gym and ball pit, our Dino dig and climbing rocks are a perfect time to enjoy the warm weather.

### Mini Trip

For Groups with a tight schedule or tight budget, we offer one hour visits. (Children's Cooking is not included)

### Favorite Summer Discovery Trips

These Discovery Trip Themes are great for multi-age groups.

**CAT**—C.A.T. is a program designed to get your student's hearts pumping as they prance around our facility as felines. The students will actively participate in this interactive story time experience while stretching and learning basic yoga moves. Our staff will lead the students as they practice their culinary skills in our interactive kitchen. In the Children's Cooking portion of the trip, the children will create a feline treat no cool cat could pass up. To top it off, exploration and discovery are right around the corner as the children experiment with sound and rhythm in our beat kitchen.

**Space**— Acting as young astronauts, your students will explore the planets through embodying the personality traits of the galaxy. The students will enjoy the Milky Way in our interactive Children's Cooking area. Further expanding on the knowledge of the universe, the educators will receive material for the children to create their own model of the solar system. Come in to discover this out of the world experience with your students.
